SPECIAL ISSUE

on What it is: An innovative device inspired by in-office dermaplaning, DERMAFLASH provides a superior level of exfoliation while removing peach fuzz, revealing radiant skin instantly.

02 We bet you didn't know: On August 30, 2016, 30,000 DERMAFLASH devices were sold in just 24 hours. CATEGORY: FACE - FORMULATION: DEVICE - GOOD FOR: DULL SKIN

DERMAFLASH FACIAL EXFOLIATION DEVICE

CAMERA-READY SKIN IS OFFICIALLY ATTAINABLE AT HOME IN A FLASH

04 What the editors think: "My skin is softer and clearer than ever. You'll be hooked after trying it once."

05 Why the company created it: Founder Dara Levy owned a medspa with a demand for dermaplaning, which made her realize an at-home solution didn't exist, so she created one.

Peach fuzz, coupled with rough and uneven texture, make skin look aged and makeup application difficult.

AFTER

After using the DERMAFLASH, skin is instantly smoother, softer and fuzz-free for a radiant complexion. "The skin you want is lying just below the skin you see."

—Founder and inventor, Dara Levy

96% of women reported skin felt softer and more

supple after one use

03 What makes it unique: DERMAFLASH is the only device that uses sonic technology and an "Edge" to exfoliate and painlessly remove peach fuzz with zero irritation. Facial Exfoliation Device, \$189, sephora.com

WHO IT'S GOOD FOR: All skin types, tones

and textures

WHAT IT'S DESIGNED TO DO: Remove the outermost layer of dead skin cells, debris and peach fuzz for an overall radiant complexion

SAFETY FEATURE:

Hygienic by design, a new "Edge" is required for each treatment

KEY FEATURES:

Proprietary stainless steel "Edge" and sonic vibration for maximum results and comfort

86 How to use it:

After cleansing skin with Prep Cleanser, insert a new "Edge" into the device. Hold the tool at a 45-degree angle and gently glide over cheeks, chin and forehead. Once complete, apply Soothe Moisturizer and you're good to glow!
